

Budget Check Errors Quick Reference Guide

Resolving Budget Check Errors

This document provides information about how to resolve budget check errors. Refer to the information presented for the Fund used on the Chartstring with the error.

Warnings and UGAMart Non-Control Budget messages do not prevent transactions from processing and require no additional action.

Sponsored Projects Begins with S– Sponsored
Begins with R - Research Foundation Sponsored

If a Project is associated with a chartstring including funds other than 20000 or 213xx, it is considered Cost Share and the chartstring MUST include a Program code identified as Cost Share.

• **Project ID**
(Should start R or S)

Budget must exist for:

- **Fund**
- **Department**
- **Program**
- **Class**
- **Project**
- **Activity**
- **Budget Account**

Project Balance: "Exceed Budget Tolerance"

UGA_KK_PROJECT_BAL_SUM_GT

Specify the Project only

- The total Budget Balance across all Activities, departments, and Funds must be adequate to accommodate the transaction.

Project ChartFields/ Account Code families: "No Budget Exists"

UGA_GM_BUDGET_BY_CFS

- The relevant Budget Account with the Fund, Department, Program, Class, Project, and Activity being charged must be budgeted. It is not necessary to have sufficient budget by this chartstring, it simply must exist, even with a \$0 budget.
- **Budget Account Identifier:** Use this tool to determine the relevant Budget Account for the Account being charged. Enter the Account you are charging, and it returns the Budget Account needed to be listed on results of the query.

Project Dates: "Budget Date out of Bounds"

UGA_GM_DATES_BY_ACTIVITY

- The date on the transaction must be within KK Project Begin and End dates shown for the Activity in the query results.
