U N I V E R S I T Y O F G E O R G I A

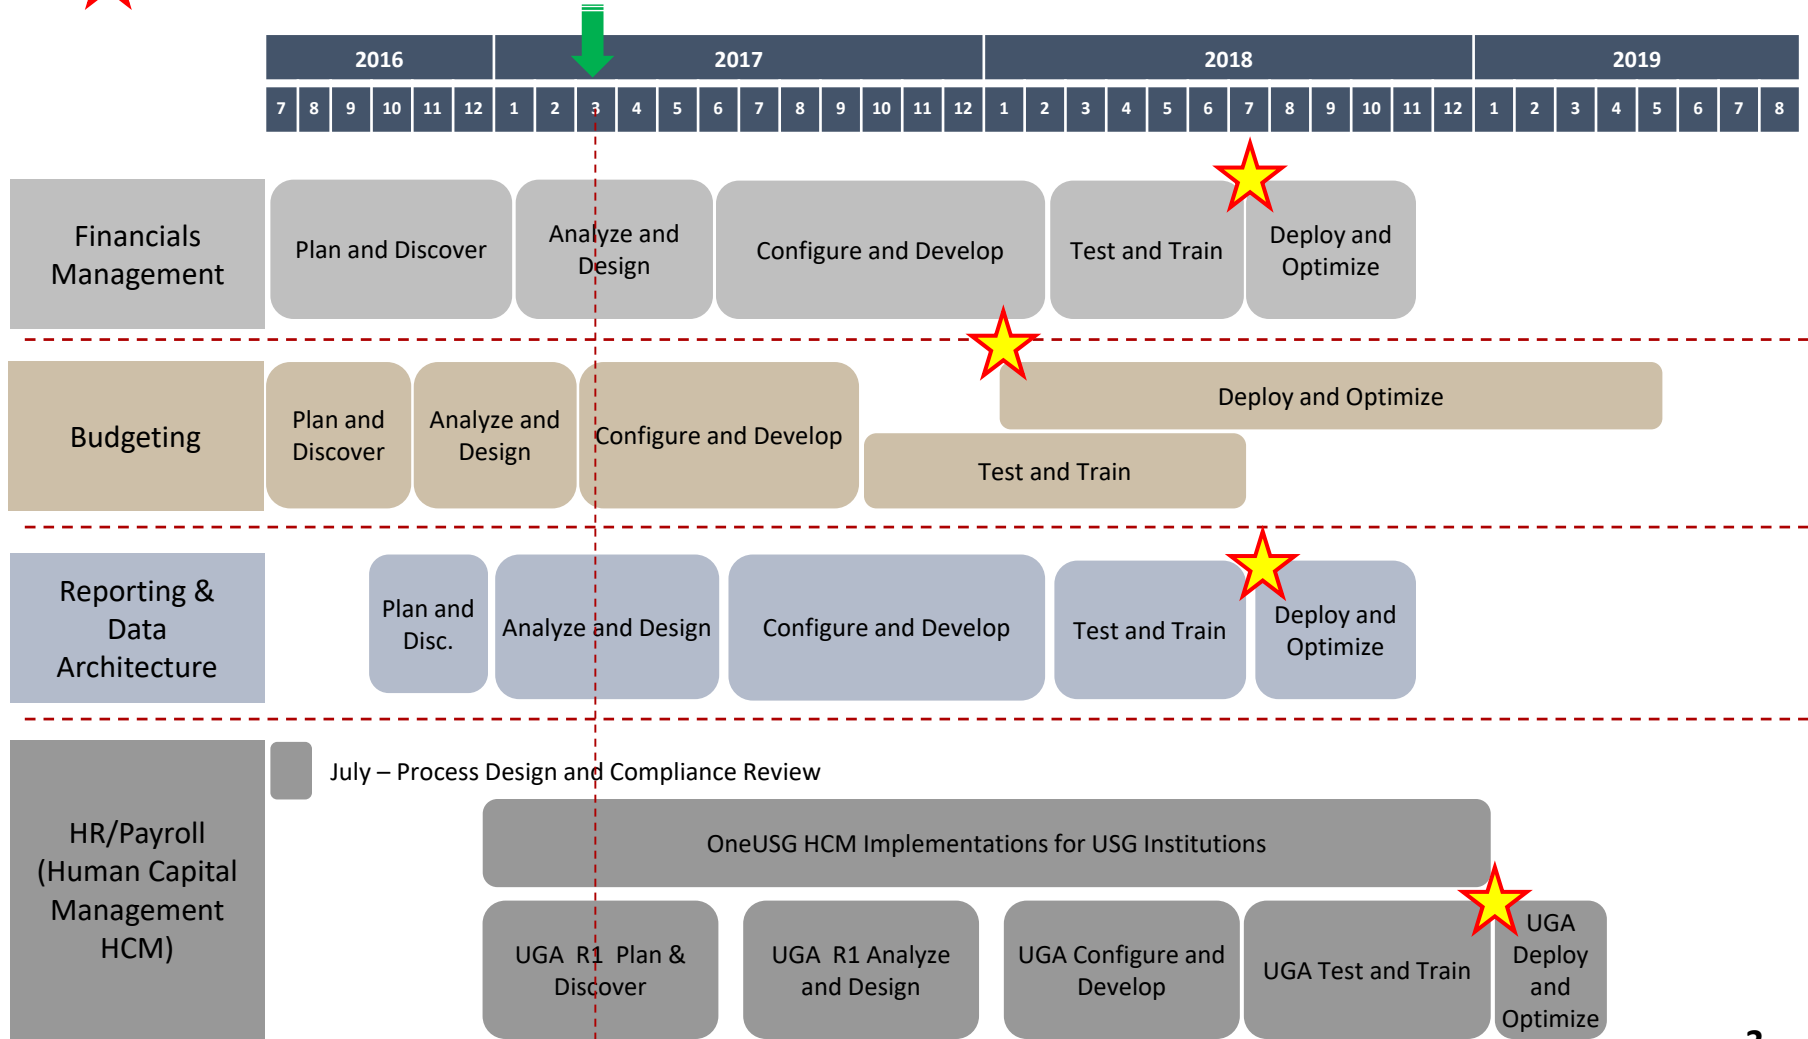

What is OneSource?

- Multi-year business transformation project
- Replace many legacy administrative systems and associated business processes
- Next Generation Finance and Human Resource administrative systems and processes: Oracle PeopleSoft 9.2

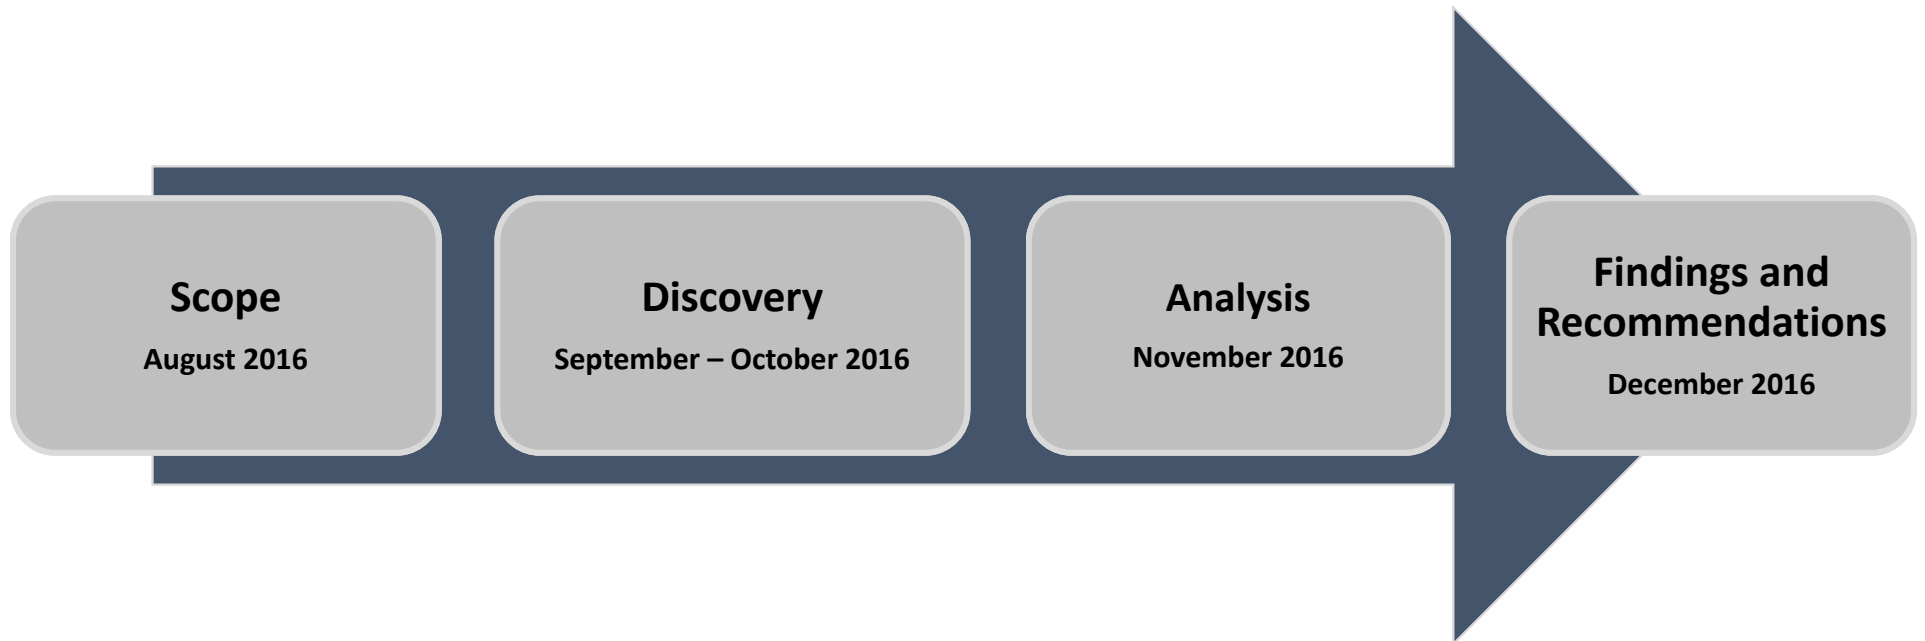

UGA's OneSource Roadmap

As of 3/1/2017

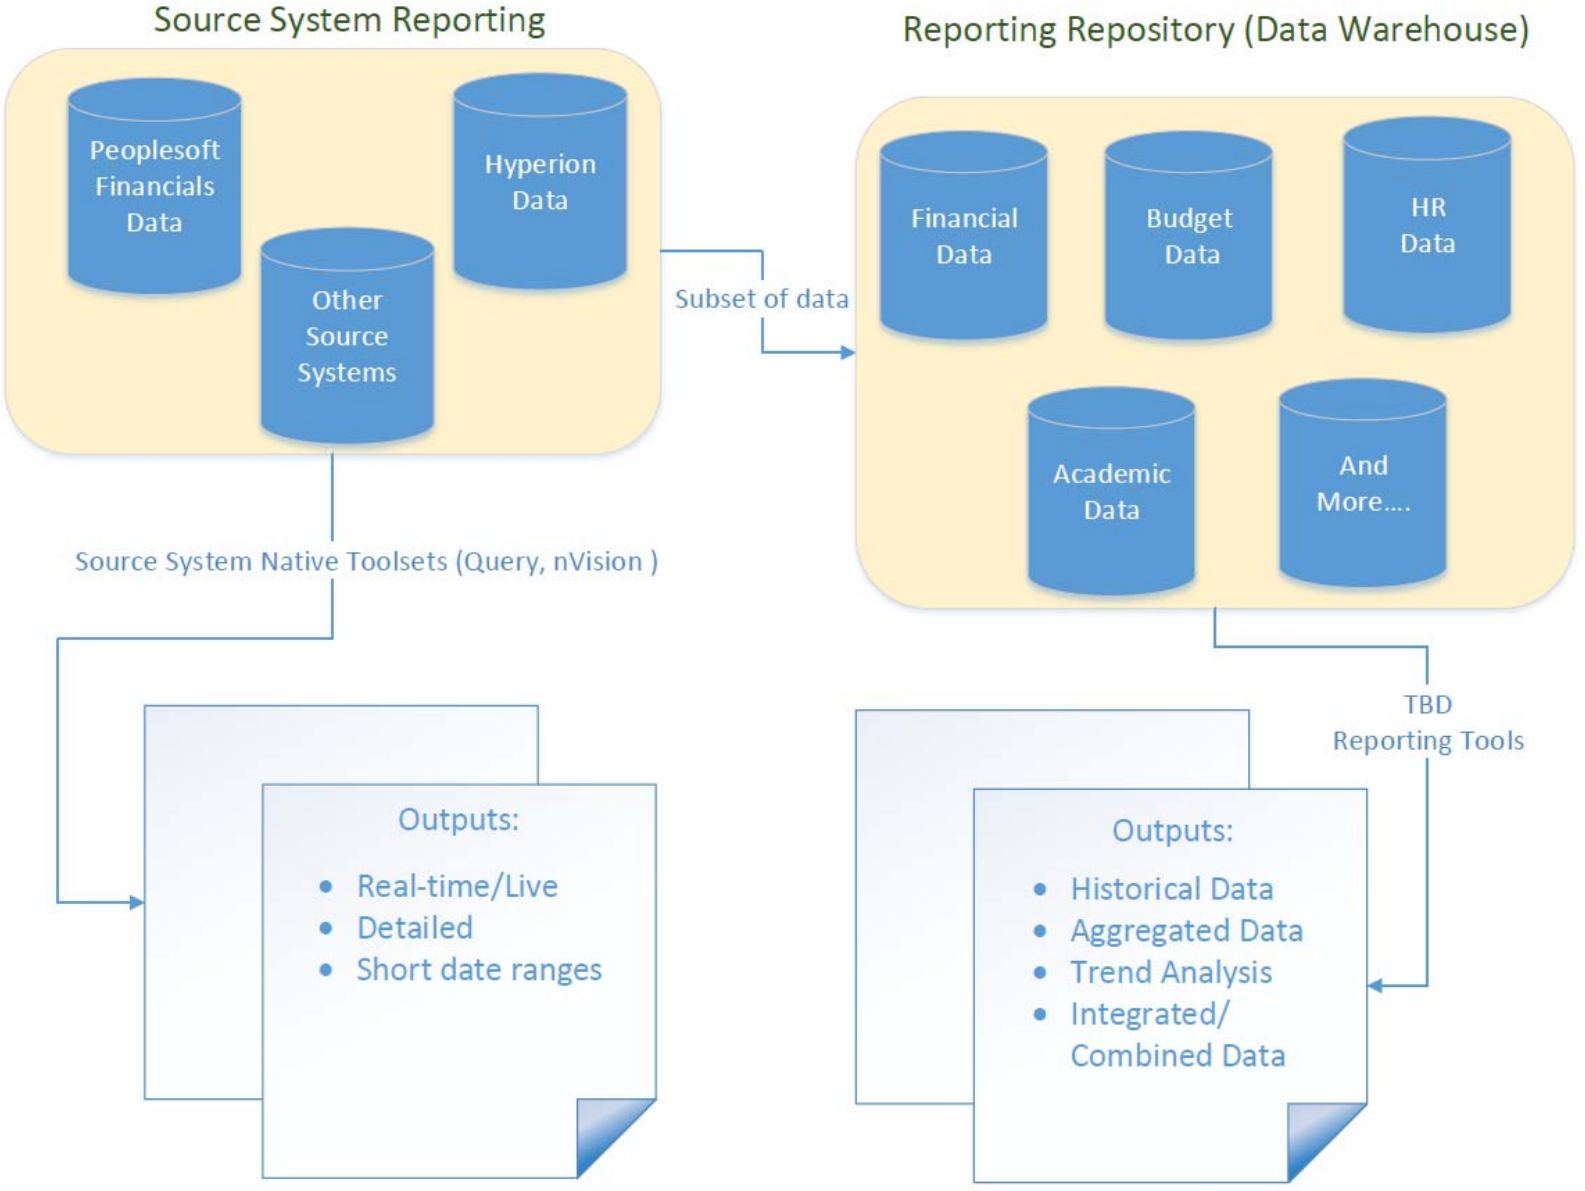

★ Go Live

BI Assessment and Reporting Strategy*

*These activities are part of UGA's OneSource Reporting and Data Architecture Plan and Discovery work efforts.

UGA's OneSource Reporting Deliverables

- Transactional reporting using PeopleSoft native toolset
 - Budget reporting and planning using Hyperion toolset
 - Legacy finance, payroll, and HR data integration
 - Collaboration with Administrative & Financial Data Management Committee
-

Reporting Tool Changes

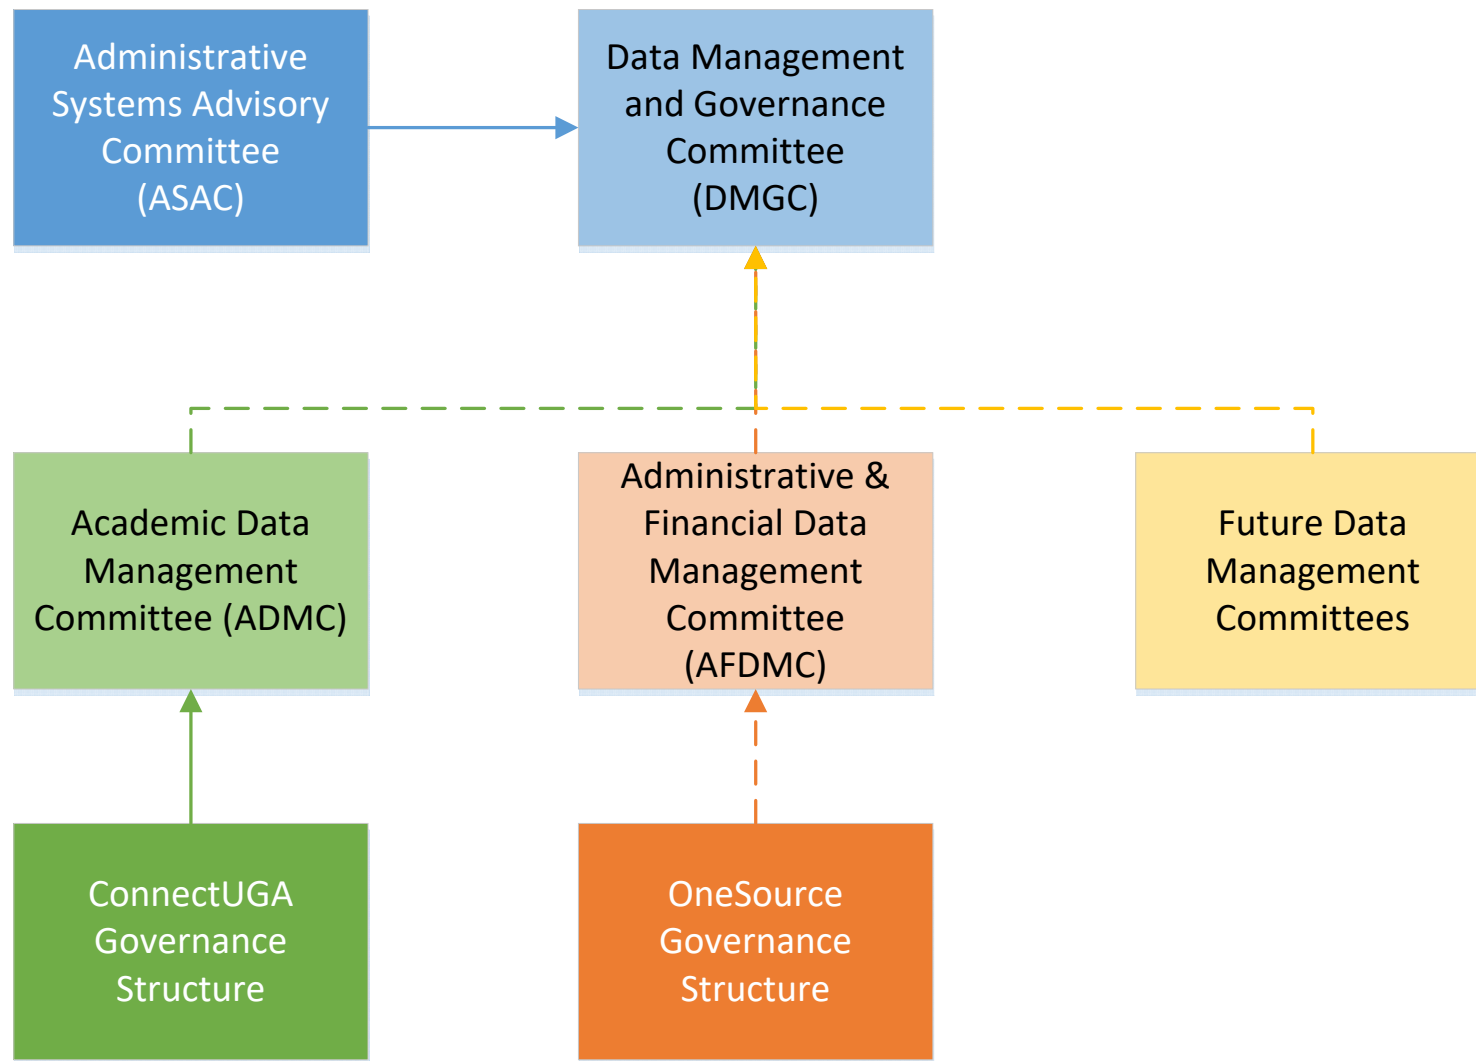

- Hyperion for budget planning and reporting
- PeopleSoft transactional reports
- PeopleSoft query
- Simpler query for historical data and PeopleSoft data
- Data visualization tools
- ARROW retired
- QMF retired
- WebDFS retired

Data and Reporting Beyond UGA's OneSource

- Data management and governance initiatives
 - Centralized analytics by Office of Institutional Research using Tableau
 - Build a reporting tier where data can be integrated across domains and from different source systems
-

UGA's Data Management & Governance Framework

Next steps

- Provide feedback
